Indoor air pollution presents a major hazard, directly affecting everyone's health: children, the elderly, office workers. To combat this you need to know the *indoor air quality* (IAQ) in and around your home or office environment. If you don't measure it, you don't know it.

EVERY BREATH YOU TAKE

Indoor air pollution presents a major hazard, directly affecting everyone's health: children, the elderly, and office workers. To combat this problem you need to know and check the air quality at home or office environment.

Kronometrix continuously tracks key environmental metrics in order to analyze the quality of the indoor air: carbon dioxide (CO_2), air temperature (T), relative humidity (RH) , volatile organic compounds (TVOC) and particulates $PM2.5$, $PM10$. The measurements are delivered for analytics conversion, using a visual and intuitive application, showing all

instantaneous values, trends and historical data for up to one year. The air quality sensor equipment is manufactured by a well established company in the field of indoor environmental measurements. The service includes all necessarily hardware and software components:

- Air quality sensor
- Internet gateway
- Kronometrix data subscription

As well as maintaining good health and well-being, by reducing allergens, Kronometrix can also help you reduce your energy costs

Access to the raw data is included in the subscription during the service period and can also be downloaded for further analysis.

Continuous measurement is essential in understanding how well the heating, ventilation and air conditioning systems are performing. Unnecessary ventilation can waste energy and cost money.

INCLUDES

|	
	High Performance IAQ Sensor: T, RH, CO_2, TVOC, $PM2.5$, $PM10$
	Kronometrix K_1 IoT Gateway, RJ45, RS485 MODBUS RTU Default data sampling rate: every 60 seconds
	Kronometrix SaaS IAQ subscription to access data
	Included standard service support 9AM-5PM (Email, Phone)

CO2 650 ppm
T 20.38 °C
Td 2.5 °C
RH 30.6 %
TVOC 0.500 mg/m²

Get to know your air

Not all IAQ measuring devices are the same. There are different factors that can directly affect the measurements: gas concentration levels, normal and seasonal fluctuations during sampling period, the total cost. Taking one single data measurement reading, might not be enough to assess the indoor air quality. Continuous measurement over a longer

1month   **+3months**

period of time to produce more air samples ensure more comprehensive data to analyse and understand.

Hazardous factors

People spend most of their time indoors while being completely unaware of the quality of the air they are breathing. Many factors can degrade the quality of the surrounding air. **Biological**: viruses, bacteria, pollen, moulds. **Chemical**: adhesives, solvents, paints, cleaners. **Particulates**: dust, fireside smoke. Continuous measurements are needed now more than ever ensure indoor air quality.

PRICING

	ITEM	DESCRIPTION	TYPE	PRICE
RENT	**BreatheWell**	High Performance IAQ Sensor, Kronometrix K$_1$ IoT gateway, 1 room up to 100m^2	Annual Commitment	**98,90 €** /month
		High Performance IAQ Sensor, Kronometrix K$_1$ IoT gateway, 1 room up to 100m^2	Monthly Commitment	**129,00 €** /month
		Kronometrix SaaS data subscription to visualise and access real-time data	Included	
	Support	Kronometrix Standard Support Mon-Fri 9AM-5PM (Email, Phone)	Included	
	Additional Room(s)	High Performance IAQ Sensor, 1 room up to 100m^2 **	Optional	**59,00 €** /room /month
BUY	**BreatheWell**	Complete Indoor Air Quality solution for businesses, home and building owners	Perpetual	**979,00 €**
		High Performance IAQ Sensor, Kronometrix K$_1$ IoT gateway, 1 room up to 100m^2	1 year warranty	
		Kronometrix SaaS data subscription to visualise and access real-time data	Included	
	Support	30 days Kronometrix Standard Support Mon-Fri 9AM-5PM (Email, Phone)	Included	
	Additional Room(s)	High Performance IAQ Sensor, 1 room up to 100m^2 **	Optional	**579,00 €** /room
	Standard Support	Kronometrix Standard Support Mon-Fri 9AM-5PM (Email, Phone). SLA 1 business day	Optional	**250,00 €** /month
	Premium Support	Kronometrix Premium Support 24x7 (Email, Phone, Skype, IRC, Slack, Video). SLA: 6 hours	Optional	**375,00 €** /month

Please note that the prices are exclusive of value added tax.

** Current price information applicable to 1 House/Apartment/Building up to 5 rooms. For large or custom configurations, please contact us regard price and delivery.

Monthly Commitment: the period of time you plan to use the service, minimum 3 months. You can cancel anytime, but you need to pay at least 3 months. Billed every month.

Annual Commitment: the period of time you plan to use the service, minimum 1 year. You can cancel anytime, but you need to pay up to 1 year. Billed every month.

Perpetual – No commitment, customer can use the product or service indefinitely. Billed one time.
